

After Your Dental Extraction

Today

- Follow the dentist's written instructions.
- Use the supplied gauze exactly as directed.
- Choose soft foods and avoid actions listed by the practice.

Medicines

Use only the medicine and schedule in your own written plan. This demo gives no dose.

Contact the practice

Use the practice's approved warning-sign list and after-hours route. Do not rely on a generic animation for urgent decisions.

Teach-back

Before leaving, explain in your own words what you will do today, what you will avoid, and whom you will contact with a concern.

Fictional education. Your dentist's instructions and conversation control.
